

LE VENDREDI 3 MARS 2023

TOUR DU MONDE AU MANÈGE

HELLO, CIFEP COMMUNITY

Each year in Chambéry, the World Tour at the Manège event brings together a diverse group of foreign students from the Chambéry area to showcase their countries and take visitors on a journey through 42 nations. The event aims to foster cultural connections and promote openness and understanding between people, bringing together both French and international students from all over the world.

The event is organized by IAE Savoie Mont Blanc students and the World Tour at the Manège association, with the generous support of numerous partners.

PROMOTING ERASMUS+

On March 3rd, 2023, the BTS Communication class and their English teacher had a wonderful opportunity to attend the World Tour of the Manège event. The occasion provided an exceptional platform for the class to interact with students from various parts of the world, engage in meaningful cultural exchanges, and discuss their daily life experiences and academic endeavors.

The diverse range of cultures represented at the World Tour of the Manège provided an excellent platform for CIFEP students and attendees to engage in conversations on a variety of topics, ranging from academic pursuits and local cuisines to personal interests and hobbies. The event offered an excellent opportunity for students to practice intercultural communication, requiring them to exhibit traits such as empathy, open-mindedness, and respect in the face of multiculturalism. The students also had to adapt their communication styles to suit the person they were speaking to, utilizing effective communication techniques to bridge language and cultural barriers.

Participating in this event proved to be a valuable experience for the students, as it allowed them to delve into different cultures, improve their proficiency in the English language, and enhance their abilities to communicate with people from other countries. Additionally, the event facilitated the growth of open-mindedness among students, a quality that will undoubtedly prove advantageous in their future careers.
